Welcome to Münster!

Münster, the bicycle capital of Germany, is a charming city with a wide-range of attractive leisure and cultural activities. Münster is close to the Netherlands and is an agriculturally oriented region with mostly small industries. Farming, particularly horse farms, dominate the area around Münster.

Founded in 793 A.D., Münster is a historic city, rich in tradition but young at heart. One fifth of its inhabitants are students. They give considerable life to the city and help to shape it. For students Münster offers simply everything: culture, art, nature, sports and fun.

Short facts about the city:

- Around 300,000 inhabitants
- About 60,000 students at 8 institutions of higher education
- Most bicycle-friendly city in Germany (an estimated 500,000 bikes)
- “The World’s Most Liveable City” (Winner of GoldLivCom Award 2004)
- Winner of European Energy Award 2009 for its commitment to renewable energies and climate protection
- Great place to live and study with a variety of universities, a rich offer in culture and first-class rural recreation

FH Münster University of Applied Sciences

The FH Münster is one of Germany’s largest and most successful universities of applied sciences with 15,000 students. Together with the large traditional university and its Academy of Music, the College of Police and many other higher educational institutions, the supposedly small city of Münster has become a true scientific center of the first order.

Buddy Programme

To help you with the transition of adjusting to student life here in Münster at MSB, we have assigned a German student, who will be your „Buddy“ and social contact to help you with any administrative problem that may occur even before your arrival.

Semester Ticket

All students have to pay a social contribution fee for each semester (about EUR 300). The semester ticket is part of it. This ticket allows you to use all local public transport in Münster and the whole of North Rhine-Westphalia free of charge (second class only). Excluded are all long-distance trains (IC/ICE/EC trains).

University Sports

This institution offers around 150 types of sports recreation, sports tours, training courses, tournaments and international sports competitions. The supervisors and trainers "exercise" around 25,000 participants every week.
