# ISBR Logo

**ISBR logo symbolizes its core values; it is an epitome of rising Sun.**

**Our logo postulates character and capacity building through integrity, realizing supremacy of Self to enjoy the beauty of Life, enriched by rays of hope. ISBR logo symbolizes its core values, it is an epitome of the rising Sun.**

**Rising Sun! Is there one? If we believe the Earth revolves around the Sun, then there's no sunrise or sunset! A sunset in one place is simultaneously a sunrise somewhere else. Constant evolution, continuous movement for- ward, resulting in progress - this is the only truth!**

**The central crust, in deep red, is iconic of human values - trust and faith, and the source of eternal energy. Around this is the white a space, representing truth and transparency, the shining face of life, bright and bold.**

**The outer golden yellow crescent reflects value transformation, from latent 'potential' into 'real'. As the gold would have passed through hard drilling, crushing, and smelting to finally become precious gold, students transform through the process of vigorous training, coaching and mentoring, with dedication and hard work, to becoming fine human beings and then effective managers.**

**The beaming rays around the crescent reflect the facets and tenets of skills and knowledge, with non-linear waves, assuring freedom and flexibility for self-expression. The risen and revealed SUN (through stimulate understand nurture cycle) is what is evolved, but what's beneath and down under is more important and precious, deep inside for the individual to discover, emerge and rise to the REAL WORLD through REAL LEARNING.**

# About ISBR International School Of Business & Research

An institute of international educational standards, The International School of Business and Research (ISBR) was set up under the aegis of Bangalore Education Trust (established in the year 1990). The incubators of ISBR had a dream—the dream of a gateway that provides a global outlook, an infrastructure that beckons to explore and learn, a cradle that nurtures high ethical and human values. ISBR stands in the silhouette of such a dream. It is envisioned to become a globally recognized center of learning and research.

The edifice of ISBR is built on the foundation of three building blocks—the Governing Council, the Academic Advisory Board and the Board of Studies. These apex bodies, individually and collectively, contribute towards high standards of academic governance. With the competence and experience of the best minds from academics and industry, ISBR Business School is envisioned as an institute of high academic standards. The spirit of excellence that has founded ISBR Business School will remain the driving force.

ISBR is committed to excellence in scholarship, training and service. ISBR Business School takes pride in being a place where students and faculty can pursue knowledge without boundaries, a place where theory and practice combine to produce a better understanding of our world and ourselves. ISBR education prepares you to think on your feet and act decisively in any business environment.

At ISBR, the focus goes beyond education. ISBR aims to prepare students for life—ingraining in them the psyche of an eternal student—making them leaders, a leader who is an ever learner, driven by thirst for knowledge and the passion to excel and ignited with the desire to achieve success for life.
