

College of Agriculture & Life Science

- Fundamentals of Biochemistry
- Agriculture and Food Chemistry
- Biochemistry 2
- Biomass Energy
- Bioorganic Chemistry
- Bioprocess Engineering for Fermented Food Production
- Bio-production Facilities and Environment Control and Practice
- Cellulose Material Engineering
- Essential English 1
- Fluid Mechanics
- Food Chemical Engineering
- Food Process Design
- Food Related Law
- Food Sanitation
- Fundamental Microbiology
- Global Pest Management
- Insect Ecology
- International Agricultural Development
- Life Technology Industry
- Molecular Biology
- Paper Converting
- Paper Cultural Properties and Preservation
- Papermaking and Paper Properties
- Plant Biomaterial Science
- Plant Breeding and Lab. 2
- Plant Growth Regulator
- Plant Molecular Biology 1
- Practice in Food Bio-Industry 2
- Preventive Med. and Public Health
- Project Design and Analysis
- Protection of bio fiber materials 1
- Wood Drying

College of Humanities

- Communication in English 2
- Intensive Writing
- Korean History
- Persuasive Speech in English

FALL 2020

COURSES TAUGHT IN ENGLISH

COLLEGES & DEPARTMENTS

College of Engineering

- Chemistry II
- Engineering Mathematics 2
- Highway and Railway Engineering
- Introduction to Spatial Information Engineering
- Introduction to Spatial Information Engineering
- Linear Algebra
- Numerical Analysis
- Numerical Analysis & Lab
- Rock Engineering & Lab
- Sludge Treatment and Design
- Water Quality Management

College of Social Science

- Digital Libraries
- Environmental Geography
- Globalization and Asia
- Information Technology and Human
- Introduction to Web Programming
- Knowledge Information Retrieval
- Public Library Management
- Sociology of Labor

Office of International Affairs

- Academic Writing & Study Skills
- Business Communication & Writing Skills
- Cultural Life in Korea
- Korea in Motion: Korean Film and the Korean Wave
- Modern Korean Society
- South Korea and International Relations

Teacher's College

- Educational Valuation and Aims
- English Composition
- English Conversation 3
- School Management
- Teaching English Speaking and Writing

College of IT Engineering

- Applied Power Electronics
- Automatic Control
- Biomedical Electronics and Laboratory
- Capstone Design Project 2
- Circuit Theory 2
- Communication Theory
- Computer Architectures
- Data Communications
- Discrete Mathematics
- Electric Power Systems
- Electronic Circuits 1
- English for IT Engineering Profession
- Linear Algebra
- Physical Electronics
- Power Electronics
- Programming Languages
- Research Guidance and Research Ethics
- Signal and Systems
- SW Project Management Technic
- Wireless Networks

College of Natural Science

- Biological Oceanography and Lab II
- Chemical Oceanography and Lab II
- Marine Biotechnology II
- Physical Oceanography and Lab II
- Special Topics in Biological Oceanography II
- Special Topics in Chemical Oceanography II
- Special Topics in Physical Oceanography II
- Animal Systematics
- Atmospheric Thermodynamics
- Linear Algebra 2
- Microbial Oceanography II
- Ocean Dynamics II
- Physical Chemistry 3
- Seminar in Linear Algebra 2
- Statistics

College of Economics & Business Administration

- Business Ethics
- Cost & Management Accounting
- Development Economics
- Financial Management
- Financial Management
- Global Management
- International Finance
- Introduction to Accounting
- Introduction to Service Marketing
- Macroeconomics
- Management Science
- Management Science
- Operations Management
- Operations Management
- Operations Management
- Operations Management
- Organizational Behavior
- Principle of International Trade
- Principles of Economics 2
- Seminar in Economics and Trade 2 (Capstone Design)
- Strategic Management (Capstone Design)
