

WELCOME 2025-2026

A woman with blonde hair in a bun, wearing a dark green jacket, blue jeans, and a grey headband, stands on a stone wall. She is looking out over a vast cityscape at sunset. The sky is a mix of purple, blue, and orange. The city below is densely packed with buildings, and a few taller structures are visible in the distance. A large, curved white line separates the top text from the main image.

INTRODUCTION

ESCI-UPF STANDS FOR SCHOOL OF INTERNATIONAL BUSINESS

ESCI-UPF was created in 1993 after an initiative from the Catalan government and Universitat Pompeu Fabra in order to train professional experts, with particular expertise in international business. This ambitious project found immediate support from institutions such as the Chamber of Commerce, the Catalan Council of Chambers of Commerce as well as several Catalan companies that have an important international activity.

Currently, ESCI-UPF offers the Bachelor's Degree in International Business and Marketing (taught either with the 50% of subjects in English and the rest in Catalan/Spanish or 100% in English).

Additionally, ESCI-UPF offers the International Business Program (jointly program with the UPF-Study Abroad Program). The subjects belonging to this program are aimed at undergraduate students with a major or a minor in business that wish to acquire an international perspective and a better understanding of the successful management practices needed to compete in the global economy. Furthermore, the program is designed to offer students insight into international business from a multicultural perspective as well as to improve their professional competences.

ESCI-UPF is also a founding member of Ecotopia, a 3-year programme simultaneously offered in several campuses of the EUTOPIA alliance of universities. The programme grants successful students a European certification in addition to their national degree, and a lifelong network of contacts in all Europe.

NON-EU STUDENTS

Students from outside the European Union (EU), the EEA (Iceland, Liechtenstein and Norway) or Switzerland, in order to stay in Spain legally for more than 90 days, need to obtain a student residence authorization, which authorizes to remain in Spain for the duration of the course and to travel within the EU and the countries that have signed agreements with Spain or the EU for the free movement of people.

Steps to follow in order to obtain your student residence authorization:

1. Before you arrive to Spain: Student Visa

Before arriving in Spain, students must obtain the student residence visa (visado de estancia por estudios) from the Spanish consulate in the student's country of origin or legal residence. The different Spanish consulates may be found on:

SPANISH MINISTRY
OF FOREIGN AFFAIRS

To apply for a visa, the student will need an accreditation of acceptance from ESCI-UPF, among other documents. This acceptance letter will be sent after admission. In order to obtain the Student's VISA it is extremely important to apply for a minimum of 20 ECTS per trimester and therefore be a full-time student.

It is very important that the visa is a student visa (type D). Any other type of visa doesn't entitle the student to the subsequent processing of his/her Foreign Identity Card (TIE). It is also crucial that this visa covers the whole academic stay.

The student visa is only valid for study at the university where the student has applied for admission, and for the period of time specified in the acceptance letter. This means that if a student chooses to study at a different educational institution after obtaining the visa, he/she should contact the Spanish embassy or consulate in the student's country of residence to make sure of the needed steps before travelling to Spain.

2. During the first month after you enter Spain: Foreigner Identity Card

If the authorized stay is longer than six months, the student must apply for the Foreigner Identity Card, within one month of entering Spain.

The student must apply for this authorization directly at the police station:

A) Barcelona residents

 At the Police Station
Rambla Guipúscoa, 74
Barcelona

B) Foreign citizens residing in towns other than Barcelona.

Should apply in person to the Police Station in the town where you live, with no need for an appointment.

Which documents are needed?

→ Application form

→ Original passport and photocopy, including visa (student type) and EU entry stamp. In case there is no EU entry-date stamp, photocopy of flight ticket.

→ Acceptance letter (either in Spanish or Catalan) as student or researcher at UPF. Provided by ESCI-UPF.

→ Enrolment certificate for the current academic year, specifying that attendance to classes is mandatory and the length and dates of the studies (minimum of six months). Provided by ESCI-UPF.

→ Certificate of census Registration in Spain (padró o empadronament). This document is the Official Register of people who live in Spain, containing their corresponding address, and every resident, either Spanish or foreigner, of a municipal area must register on it. Please check Barcelona City Council's website to learn more about it (website in Catalan).

 Information about
census register

These documents must be handed in by the student/
researcher within the first month after arrival in Barcelona or
the Schengen Area at:

NOTE: The student is required to pay some taxes for this administrative process. The same day you bring your documents to the Police station, you will be given the taxes payment form so you can pay this fee. You will need to bring this form with you to pick up your definitive TIE.

TRAVEL INSURANCE

All students at ESCI-UPF must have medical, travel and liability coverage

If you are a citizen of Spain, you must have medical coverage that is valid in Barcelona (whether Social Security coverage, a private health insurance policy, etc.).

If you are a citizen of a Member State of the European Union, the European Economic Area or Switzerland and entitled to coverage under the social security system of your country, then you can apply to the European health Insurance Card (EHIC), which can be obtained from the public health authorities of your home country. While the European Health Insurance Card gives EU citizens access to medically necessary, state-provided healthcare during a temporary stay in Spain, the EHIC is NOT an alternative to travel insurance. It does cover NEITHER accidents NOR any private healthcare or costs such as a return flight to your home country or lost/stolen property. Moreover, the EHIC does NOT cover your costs if you are traveling for the express purpose of obtaining medical treatment.

If you are a citizen of a country outside the European Economic Area or Switzerland, then you must find out whether there exists a mutual health provision agreement between the Social Security system of your country and Spain (this is the case of a number of Latin American countries). If such an agreement exists, you can obtain a document from the relevant authorities in your country entitling you to free medical coverage in Spain.

All international students, including Erasmus, are required to have full coverage of eventual risks during their stay in Spain and ESCI-UPF will check that at least an accidents and travel insurance has been contracted to complement the EHIC. These are the minimum ESCI-UPF requisites. Besides, we recommend considering other benefits packages offered to UPF students at a special price by ONCAMPUS.

ONCAMPUS

Barcelona has a wide range of health centers and hospitals. The public health system provides free universal access, while ensuring good quality care levels:

Centros de Atención Primaria - CAP (Primary Care Centers)

This is the first place you should go when you have a health problem. They offer health and social care. You must be a EHIC cardholder in order to access to their services for free. Barcelona has a comprehensive network of CAPs. To find the CAP closer to your place of residence you can visit:

CATSALUT
WEBSITE

Public Hospitals

You should go to a Hospital only in case of an emergency. If you face a common health problem you should go first to your nearest CAP. If the CAP health staff considers that it is necessary they will refer you to the Hospital. To access to their services for free, it is also necessary to be a EHIC cardholder. In Barcelona, there are also private hospitals and clinics. If you have acquired private health insurance, check the documentation to find out which health centers or hospitals you are assigned to.

For more information about the medical and health care see Health and Care website

In case of emergency, you should call the emergency phone number.

HOW LONG DOES A DEGREE TAKE AT ESCI-UPF?

ESCI-UPF, along with Universitat Pompeu Fabra, has been one of the pioneer institutions in the implementation of the Bologna process in Spain. In Spain, the fully adapted to Bologna undergraduate programs, grados, take 3 or 4 academic years.

HOW LONG DOES EACH SUBJECT TAKE AT ESCI-UPF?

ESCI-UPF has trimester-long subjects. Therefore, all subjects are structured along 10 weeks of classes. Final exams are scheduled at the end of each trimester. This system facilitates the continual learning process and a more effective evaluation of the knowledge acquired.

HOW IS THE ACADEMIC YEAR STRUCTURED AT ESCI-UPF?

The academic year at ESCI-UPF is structured around three trimesters. The academic year begins in late September and lasts until June, with three vacation periods: Christmas, from late December to early January; Easter, between late March and mid-April, and the summer vacation period.

The first trimester runs from mid September until mid December. The second trimester runs from early January until mid March. The third trimester runs from mid March until mid June. The updated academic calendar may be found within the Section ESCI-UPF General Academic Calendar.

HOW MANY CONTACT AND TEACHING HOURS DO SUBJECTS HAVE?

The Bachelor's Degree in International Business and Marketing combines plenary sessions and seminar sessions. The Bachelor Degree in Bioinformatics is delivered through masterclasses, computing classes and lab work. There are also seminars and individual and group tutorials.
