

Örebro University School of Business, Sweden

Örebro University is a modern, highly ranked, broad-based university with internationally prominent research. 16,000 students and 1,700 staff study and work at this publically funded university. We offer 85 degree programs at the undergraduate and Master's levels as well as some 1,000 separate courses. Örebro University is situated in the beautiful student friendly city of Örebro, about two hours west of Stockholm by car, which allows for easy access from all over the world.

Örebro University School of Business, one of eight schools at Örebro University, is a place where education and research meet in the four subjects Business Administration, Economics, Informatics, and Statistics. We are accredited by AACSB (the Association to Advance Collegiate Schools of Business) and we are ranked by Eduniversal. For our incoming exchange students, we offer courses in English at Bachelor's and Master's level within all subjects. Students are also able to choose from all English courses at Örebro University that they meet the prerequisites for. Örebro University School of Business has around 1,500 students and around 80 incoming exchange students.

In 2018 we launched a new Master's program that was Sweden's first two-year Master's in sustainable business. From the fall semester 2022 we are glad to offer a full semester of 30 credits of the program in English, where we welcome students from our partner universities to join. The semester consists of four courses given consecutively: "CSR and Business Ethics", "Sustainability reporting, Control and Communication", "Environmental management", and "Sustainable Supply Chain Management".

Also, a Master's Programme in Information Systems - Information Security Management and a revised Master's Programme in Economics and Econometrics have been launched recently, both programs are fully taught in English. Our Master's Program in Applied Statistics has received the EMOS label by Eurostat and is also given in English. At the moment the Master's in Applied Statistics is under revision and the new version is planned to start in 2023. Exchange students are welcome to take courses from all our master programs, please see the links below, courses for exchange students.
