

COURSE LIST

Spring 2021

Welcome to Umeå School of Business, Economics and Statistics (USBE)!

USBE consists of three different departments: **Business Administration**, **Economics** and **Statistics**. In Sweden we separate between the three subjects, therefore a lot of courses within one of the subjects does not mean you automatically meet the prerequisites in the other. To be sure you are eligible to the courses of your choosing, read the prerequisites carefully!

Study pace

Courses given by USBE are usually either 30 credits, 15 credits or 7.5 credits. If a course is 30 credits, it consists of four modules given in sequence. You must pass all four modules in order to pass the course. Exams are usually given at the end of a module.

A course that is 15 credits tend to consist out of two modules, and you must pass both modules to pass the course.

Courses given by USBE has a study pace of 100%, unless stated otherwise.

It is not recommended to study two courses with a study pace of 100% at the same time. When choosing courses, make sure you keep the study pace of the course in mind, and the dates of the course in order to avoid this.

30 ECTS equals full-time studies

Students can only be admitted to 30 credits each semester. Make sure to choose courses up to 30 credits when applying to courses, courses that exceeds 30 credits will be dropped. The only exemption to this is *Swedish for International Students, Beginners' Course I*, *Swedish for International Students, Beginners' Course II* and *Swedish for International Students, Beginners' Course III*. If a student has applied to one of these courses they can be admitted to 45 credits.

In the upcoming pages you will see courses offered in Business Administration, in Economics and in Statistics. By clicking on the course title you will be directed to the course page where you can read about the course.
